

In 2015, 153 correctional facilities met the Texas Health & Safety Code Chapter 89 criteria and were required to report their TB screening activities in the form of a Monthly Correctional TB Report. This annual report highlights TB screening activities in your jail and compares results to all designated Texas Health & Safety Code Chapter 89 correctional facilities.

| Table 2: TB Screening Results January 1– December 31, 2015 |                                   |                           |  |
|--|-----------------------------------|---------------------------|--|
| <b>Ector County<br/>Correctional Center</b>                | <b>Total at this<br/>Facility</b> | <b>% at this Facility</b> | <b>All Facilities<br/>(Chapter 89)</b> |
| <b>INMATES</b>   |                                   |                           |  |
| Number of Skin Test Administered                           | 598                               |                           | 483,566                                |
| Number of Skin Test Read                                   | 580                               | 97.0%                     | 369,748                                |
| Number of Positive Tuberculin Skin Test                    | 16                                | 2.8%                      | 22,616                                 |
